

July 2011

Dear a Mother's Touch Families,

I hope all of you enjoyed a wonderful, relaxing, fun-filled July 4th Holiday. The weather cooperated beautifully by maintaining cool and overcast conditions for our annual parade last Friday. The children enjoyed making and displaying the festive decorations for parents and neighborhood spectators. It was fun to see the children waving and smiling along the parade route.

We hope you are as pleased as we are with the new landscaping that enhances our main signage on Dryden as well as our camp garden which is flourishing along the south end of our building. This is an ongoing, learning project that is already producing flowers on tomatoes, buds on pepper plants and more.

Please check the Parent Information Board at our entrance for the most updated information about activities and announcements for this month through the start of our fall curriculum on August 15. Our teachers continue to work hard sharing their best for your children.

Sincerely,

Roberta Schuster, Director
